1. Mercy Iowa City implemented a new Allscripts EMR system on March 18, 2022. The Allscripts go-live had a significant impact on Mercy Iowa City's operational performance. The EMR rollout resulted in major revenue cycle issues pertaining to billing, cash collection, and delayed financials. In late July 2022, Allscripts dedicated resources to revenue cycle and early indications show improvements in weekly cash collection trends, cash receivables, and a slowed burn rate. By August 2022, Mercy Iowa City engaged a third party to help resolve the clinical impact of the Allscripts go-live. Mercy Iowa City hired an experienced revenue cycle leader focused on Allscripts system issues as well as internal processes and has since seen accounts receivable and accounts receivable days return to normal levels.
